

## TECHNICAL DATA SHEET

### FP-01 EAR PLUG

#### Product Introduction:

- Udyogi Ear plugs are small, protective devices worn in the ear canal to reduce or block out unwanted noise, protect the ears from water, or prevent the entry of harmful substances like dust or debris.
- Food-grade PU foam ear plugs offer a combination of safety, comfort, and effective noise reduction, making them an ideal choice for both industrial and personal use. Their non-toxic nature, ease of use, and affordability enhance their appeal across various settings.
- Designed to meet EN352-2:2002 standard, it ensures maximum protection for the wearer in various high noise environments.

#### Features:

- Ear plugs are made of light weight, food grade soft PU foam.
- Seals the ear canal without pressure.
- Easy to push inside the ear canal.
- PP cord smooth and dirty resistant surface for hygiene.
- Convenience to prevent loss of ear plug.
- Comfortable for a wide range of ear canal sizes disposable.

#### Benefits:

- **Cost-Effective:** These ear plugs are often more affordable than other types of reusable ear protection, making them a cost-effective
- **Safety & Non-toxicity:** Ideal for industries where safety and hygiene are crucial.
- **Easy to Use and Dispose Of:** The disposable nature eliminates the need for cleaning or maintenance
- **Adaptability:** The foam molds to different ear shapes, ensuring a secure fit and better noise reduction.
- **Biodegradable Alternatives:** : Made from biodegradable materials, providing a more environmentally friendly option.

#### Udyogi

### Product Specifications:

**Model:** FP-01

**Product Type:** Ear Plug

**Type:** Disposable

**Material:** Food grade soft PU foam

**Length:** 24.5

**Weight:** 2.96 g Per Pair

**Attenuation Rating :** SNR: 38 dB NRR: 33 dB

**Color:** Orange

**Packaging:** 25 pcs. per carton

**Standard:** EN352-2:2002

Packaging

### Applications:

- Ear plugs provide essential hearing protection.
- Protects hearing by reducing exposure to high decibel levels in noisy environments.
- Used to reduce protect from dust and water.

### Industry :

These helmets are utilized for their protective and practical features in various industries such as

Iron & Steel

Aviation

Power

Cement

Manufacturing

Forestry and  
Logging

Food  
Processing

Pharmaceutical

Chemical

Mining

Oil & Gas

Construction

Railroad  
Industry

Automotive

**Safety Information :**

- Ensure a snug fit to achieve optimal noise reduction and protection
- Avoid squeezing the ear plugs too quickly, as this may cause them to expand before proper insertion.
- Do not attempt to reuse dirty or damaged ear plugs.

**Usage Instructions :**

- Using clean hands, gently roll the ear plug between your thumb and fingers to form a small, crease-free cylinder.
- With one hand, reach over your head and gently pull up on the top of your opposite ear to straighten the ear canal.
- Insert the compressed ear plug into the ear canal and hold it in place for 20-30 seconds while it expands to fill the canal, creating a snug fit.
- Gently twist and pull them out of your ears to remove the ear plug out.

**Storage :**

- Can be stored and transported in their original cartons at ambient temperature (0°C to + 30°C)
- May be stored in the dark for up to 1 year
- Do not store in direct / high heat or sunlight as this may distort the shell.
